

Best Workplace for Commuters :

GCAB is delighted to collaborate with businesses and organizations to introduce smart share the ride transportation, track the ride and other commuter tools. We hope you find these resources beneficial to get employees to work, free up parking space and reduce congestion and air pollution.

Start a Workplace Car Pool Program

This easy-to-use tool will allow staff to find a match to carpool with and track the impact of their trips. Call us to setup the corporate account for free. Send out a communication to your staff with the following steps:

Step 1: Employees to visit <http://www.GCab.in> and register

Step 2: Search and share to find your carpool match

Host a Workplace Commuter

In order to make every step of the commuter's trip accessible, efficient, safe and comfortable. Encourage staff to track their trips in web/mobile for a specific time period. Download and install the GCAB Tracker in (<https://play.google.com/store/search?q=gcab+tracker>)

Google Play. Corporate challenges are a great way to boost company morale.

Host a Secured Workplace Rider

When employees create a tracking account, he/she can choose what area/zone and city he travels. Geo Corridor (route-based) geo fencing support, alerts the arrival and departure of various travelled routes. The rider is restricted to the geo zones, the SMS alerts authorities of any travel depart outside the zone.

Communication

Create internal communications to promote your carpool program to staff. This could include a carpool information board, email campaigns, intranet posts, posters or hosting a 'How to' lunch and learn to get the word out. Whatever medium works for your worksite, provide staff with resources that explain guidelines for carpooling and tips on how to get started.

Car Pool Parking

This is a great incentive to encourage staff to try carpooling. Work with facilities to get a few spots in and near the building entrance dedicated to carpoolers. Designate these spots with a specific parking sign. As demand grows, so can the number of carpool spots! Provide all carpoolers with a sticker or hangtag to display when parking in carpool spots.

Commute Relations Representative

A GCAB Community Relations Representative can answer any questions about utilizing commuter options, assist with setting up or updating an employee commuter program and providing in-person on-site presentations. To request assistance, contact our GCAB Representative at +91 431 4001232
